

SECTION A-A

SCALE 1 : 3

Make sure all aluminum strips are supporting the Airlines.
No aluminum strips necessary when Airline lays centred on top of a floor bump.

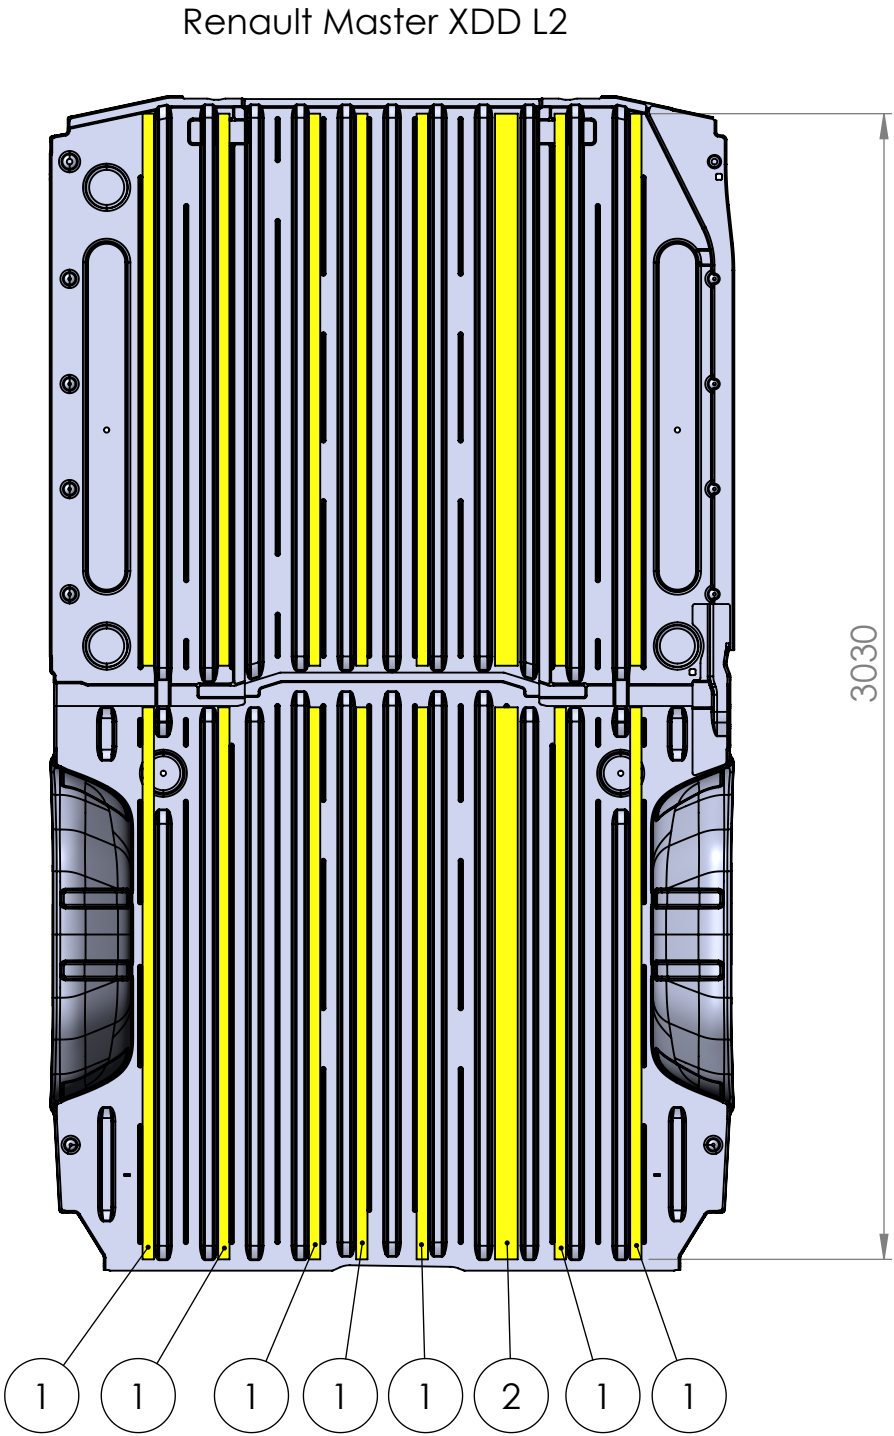

Apply glue to the red surfaces and
press down the aluminum strips (yellow).

After applying glue, slowly lower
down the floor onto the glue.

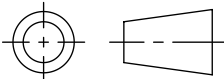

When the floor is lowered, walk
over the floor to press the floor
thoroughly into the glue.

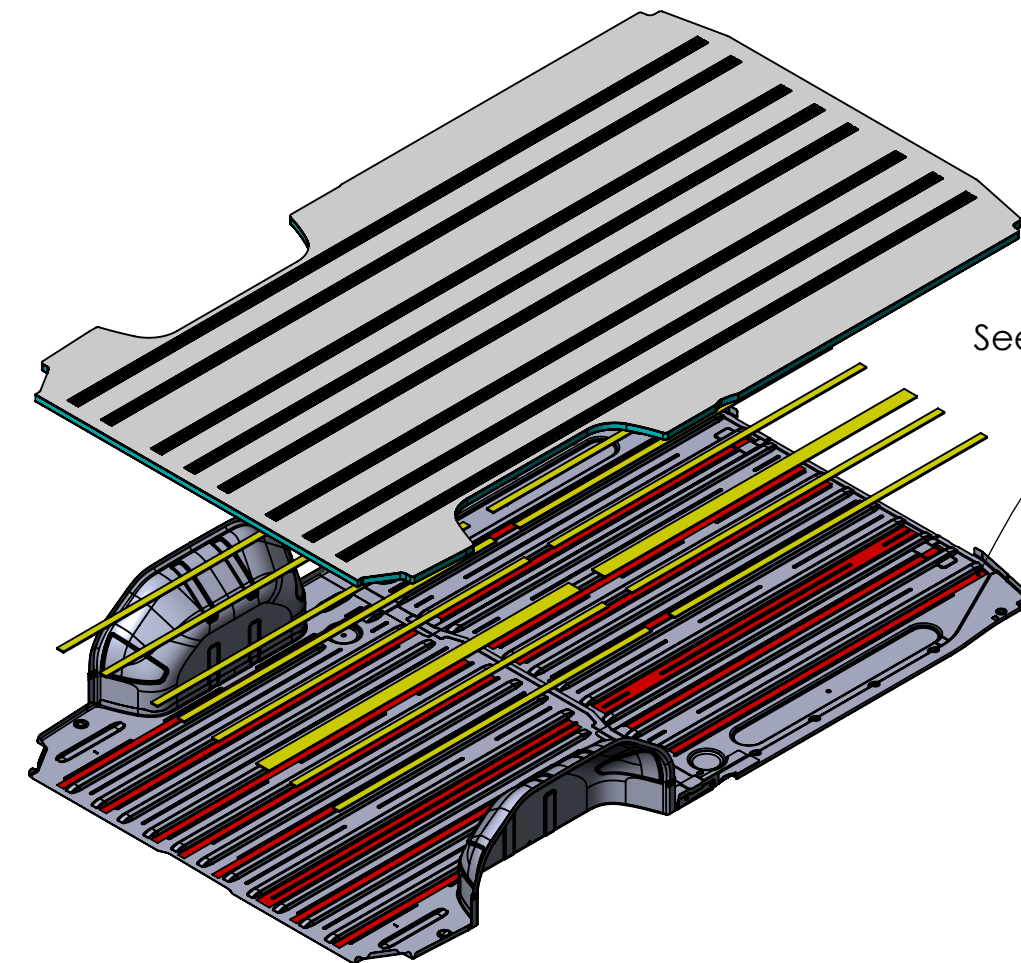

Make sure the "open time" of
the glue is not exceeded!

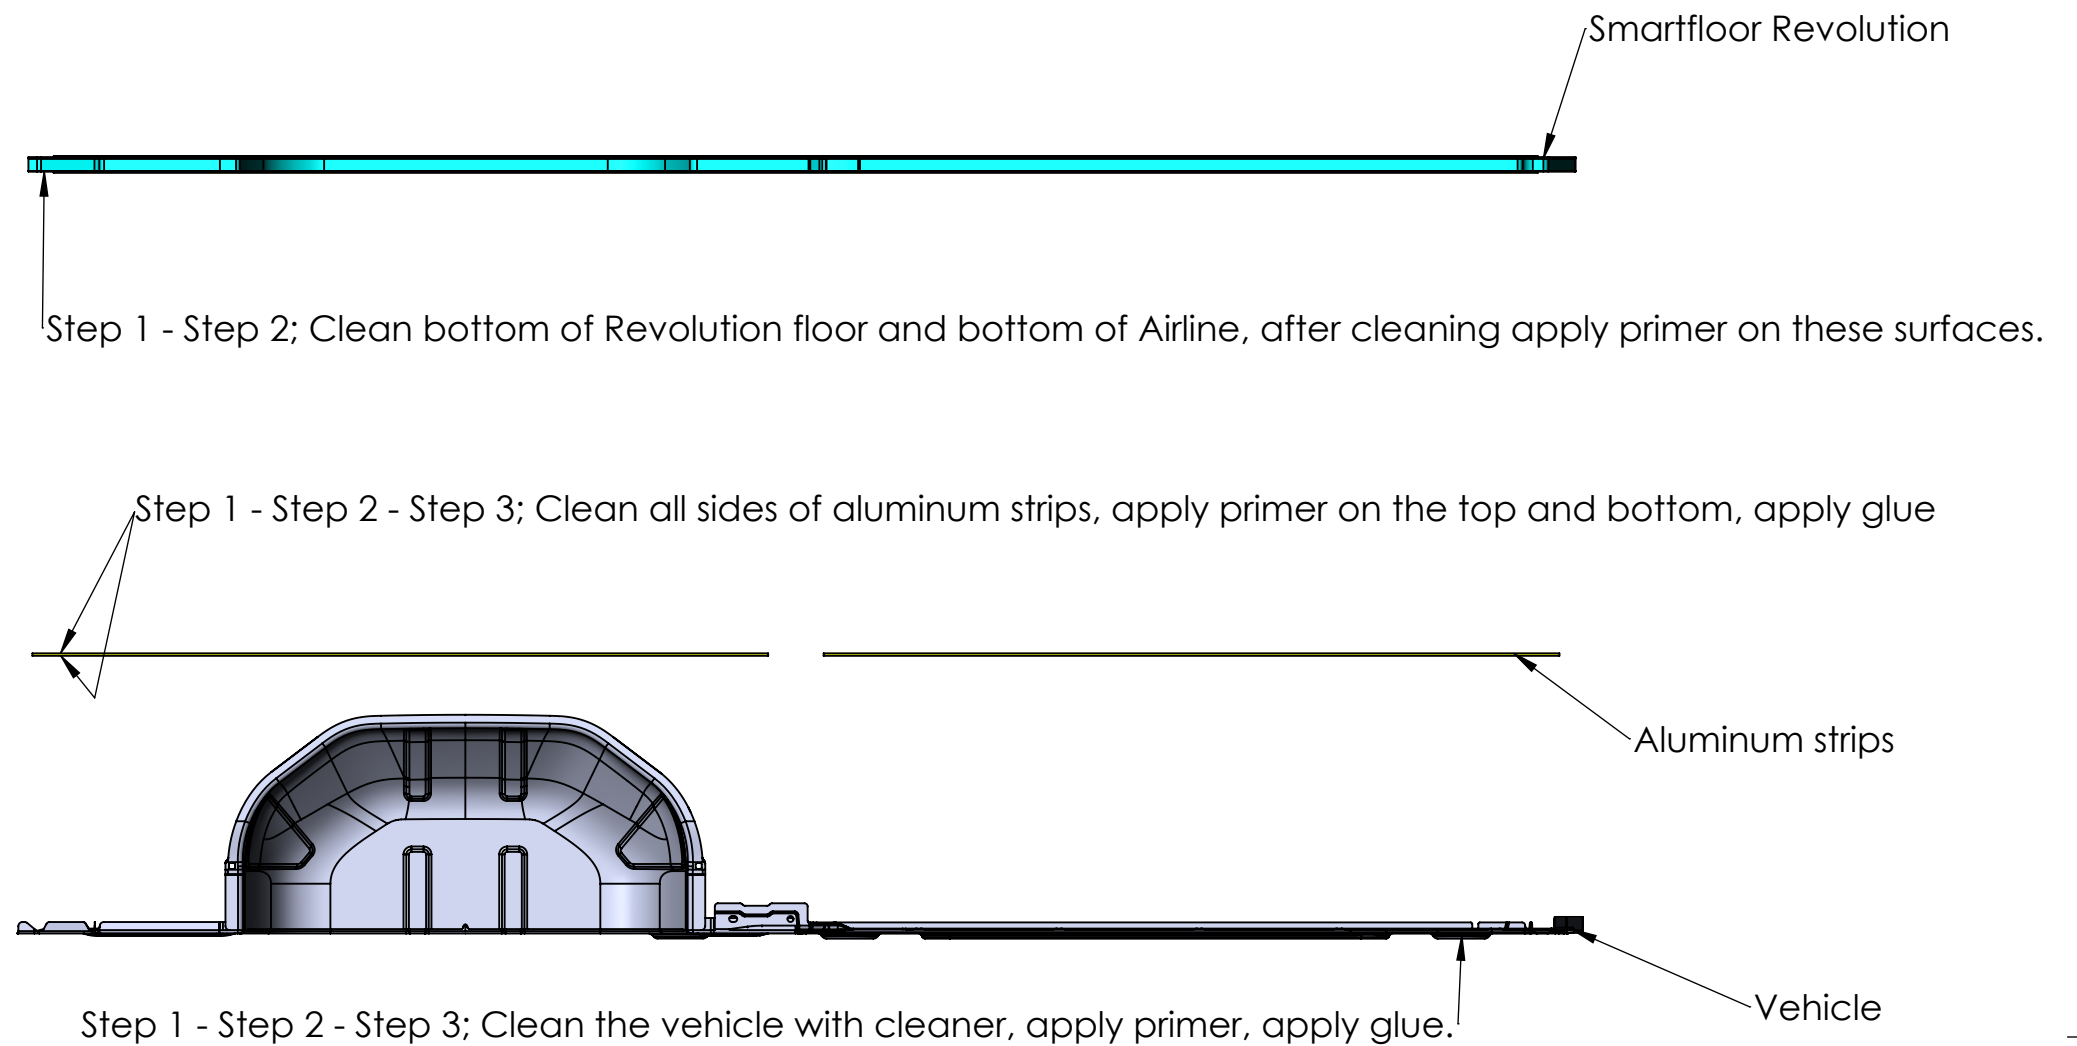

Apply glue on all top surfaces.
(Green highlighted surfaces)
